• **Summary:**

- Oversee the comprehensive end-to-end execution of all reporting deliverable, from initial requirements gathering and design through to final delivery, ensuring the highest standard of quality, accuracy and timeliness.
- Provide expert technical guidance and leadership within reporting environment, specifically leveraging Jasper report/Server, SQL Databases.
- Proficient in designing, developing, and deploying enterprise reporting solutions using TIBCO Jasper Reports and SQL Server, including pixel-perfect, parameterized, cross-tab, and dashboard reports.
- Experienced in Jasper Server upgrades, report migration across environments (DEV/QA/PROD), performance optimization, and reporting automation.
- Experience using JSON as a data source in Jasper Reports, where I parsed nested JSON structures, mapped fields using JSONQL/JsonDataSource, and built dynamic reports from API responses.
- Conducted requirement workshops and stakeholder discussions to translate complex business needs into scalable reporting solutions.
- Maintain detailed documentation of troubleshooting steps, solutions and workarounds within the ticketing system for knowledge sharing and future references.
- Flexible hours for production support if something urgent issue from clients or users feedback.
- Excellent communication skills, with the ability to explain technical concepts to non-technical stakeholders.

Technical Skills:

- Reporting Tools: TIBCO Jasper soft, Jasper Server (6.4, 7.2, 8.3), Jaspersoft Studio, SSRS (RDLC)
- Programming: Groovy, SQL, PL/SQL, Java, JSP, JavaScript, HTML, CSS
- Databases: SQL Server (2008–2018), MySQL, PL/SQL
- Analytics: Power BI, Databricks
- Tools: Git, SVN, JIRA, ServiceNow, ManageEngine
- GITHUB : <https://github.com/Msridhar444/Jasper-Reports>

Professional Experience:

Kasmo Global (Deployed to: NTT Data) | Technical Lead/Developer

Jun 2025 – Feb 2026

Responsibilities:

- Led a team of 4 developers in the design, development, testing, and deployment of reporting solutions using JasperReports and SQL Server.
- Designed and implemented Groovy-based event plans for automation including notifications and report triggering.
- Collaborating with stakeholders to gather, document, and prioritize business requirements.
- Owned end-to-end production releases, including deployment planning, change management, validation, and post-production support.
- Integrate Jasper reports seamlessly into java/J2ee to provide real time data visualization.
- Provided technical leadership and guidance to team members, ensuring adherence to coding standards, best practices, and project timelines.
- Manage report scheduling, distribution and multiple export formats.
- Led production support activities, root cause analysis, and issue resolution for critical reporting and data-related incidents.

TekSystem (Deployed to: HSBC) | Technical Lead/Developer

Jan 2025 – May 2025

Responsibilities:

- Served as the primary point of contact between technical teams and business users, ensuring alignment of project objectives and deliverables.
- Owned end-to-end production releases, including deployment planning, change management, validation, and post-production support.
- Coordinated task allocation, progress tracking, and issue resolution to ensure successful project delivery.

- Managed report migrations across Development, QA, UAT, and Production environments while ensuring minimal business disruption.
- Designed pixel-perfect and parameterized reports with SQL Server backend.
- Build and enhance custom front-end reporting UI and internal tools, ensuring a seamless and user-friendly experience for technical and non-technical users.
- Performed SQL debugging and optimized queries for report performance.
- Managed report server administration activities, including scheduling, security configuration, user management, and environment upgrades.
- Maintain detailed Documentation or troubleshooting steps solutions and workaround within the ticketing system for knowledge sharing and future references.

Neviton Softech Pvt. Ltd | Data Analyst

Apr 2021 – May 2022

Responsibilities:

- Design, develop, and maintain scalable reporting tools and data reporting platforms to support client's settlement and reconciliation.
- Troubleshoot and resolve issues related to Reporting tools, Reconciliation results, data integrity, and front-end functionality. Provide production support any reporting data issue feedback from clients and find the root cause, find the right contact to handle if issue outside.
- Collaborate with business analysts, other engineers, sales, and stakeholders to gather requirements and translate them into robust reporting solutions.
- Work with data infrastructure engineers and team members to optimize reporting data store design. Monitor any reporting's running status and optimize them if too slow send to clients.

GapBridge (Deployed to Infosys) Data Analyst

Apr 2019 – Oct 2020

Responsibilities:

- Developed reports for Finance & Tax domain using SSRS and Jasper
- Design, develop, and maintain scalable reporting tools and data reporting platforms to support clients settlement and reconciliation.
- Collaborate with business analysts, other engineers, sales, and stakeholders to gather requirements and translate them into robust reporting solutions
- Upgraded Jasper Server from 6.4 to 7.1.
- Designed and deployed reports using SQL Server 2008 R2/2012.

Essilor India Pvt. Ltd. | Software Engineer

Apr 2017 – Mar 2019

Responsibilities:

- Developed reporting solutions for Manufacturing and E-Commerce systems.
- Created SSRS and Jasper reports using SQL Server backend.
- Migrated reports across environments and upgraded reporting servers.

SYMAHB | Application & SQL Support Engineer

Apr 2015 - Nov 2016

Responsibilities:

- Supported reporting and SQL services for banking applications.
- RDLC reports are designed and deployed to production environments.
- Managed server activities and handled production support issues.

Education

Bachelor of Engineering (CSE) – VTU, Belgaum – 2014

MBA (PMP) – S.P. Jain Institute of Management & Research – 2024
